About Frog Family

Frog Family is a meme token that only rewards investors for holding, the number of rewards received will increase over time if investors hold them longer. We are the safest place for long and short term investors in the meme category. Safemoon x10000 shiba x10000 babydoge x10000 so the next x10000 memecoin will be Frog Family.

Why Frog Family

Frog Family metaverse ecological system mainly contains four sectors, including NFT, Gamefi, DeFi and Web3, and establishes a new LP pledge mining operation mode on the basis of the four sectors, players can obtain NFT through the blind box, and the obtained NFT can be traded through the DeFi system. social scene to create their own character in the metaverse space.

Frog Family Rewards

Rather than investing in a crypto token and waiting for its price to rise, rewards tokens pay you while you wait. Rewards tokens make you passive income, in other words, without you doing anything. Just keep your position and watch the coins accumulate in the crypto wallet of your choosing. Ownership of the NFT in fact allows for a passive gain on all the views made by that content: it is an investment plan and a completely new way of exploiting love for arts.

Frog Family Staking

Like a lot of things in crypto, staking can be a complicated idea or a simple one depending on how many levels of understanding you want to unlock. For a lot of traders and investors, knowing that staking is a way of earning rewards for holding certain cryptocurrencies is the key takeaway.
